- NVidia Jetson AGX !
- 32 GB !
- D317AO-001 !

AVerMedia Carrier Board D317AO support NVIDIA® Jetson AGX Orin , which brings next-level AI performance and power-efficient capability for all autonomous machines. This optional SoM makes advanced analytics possible while providing the ability to handle a host of other embedded IoT applications.

D317AO includes a 120-pin high-speed connector for connecting MIPI SerDes cameras, which can fulfill the demand for AMRs. In addition, a sufficient Ethernet bandwidth with 10G is excellent for applying smart security, enabling dozens of IP cameras to stream simultaneously. The connector for the 10GigE Vision Camera is also great for smart inspection. Lastly, with its compact size, D315 5G furnishes a PCIe slot for multi-function expansion and excellent compatibility with 5G and Wi-Fi 6.
