- 8-inch 1000-nit display
- 5G, Wi-Fi and GNSS
- IP67 rugged protection
- 8 GB RAM, 128 GB storage

MDT880 is an 8-inch rugged Android vehicle tablet designed for professional use in vehicles, field service and industrial environments. It combines an 8-inch anti-glare display with 1000 nits brightness, 5G and Wi-Fi connectivity, GNSS, IP67 protection and an 8000 mAh battery. Built around an octa-core platform with 8 GB LPDDR4X RAM and 128 GB UFS storage, it is made for demanding mobile workflows.

Additional features include optional barcode scanning, LoRa, LF RFID, RS232 expansion, external GPS support and flexible cradle integration with serial, GPIO, CAN Bus, Ethernet and video interfaces. This makes the MDT880 a versatile platform for fleet, warehouse and service applications.
