- LF RFID reader module
- 125 and 134.2 kHz
- Dual-frequency operation
- For MDT880

The MOD-LF-01 is an LF RFID reader module for the MDT880. It supports dual-frequency operation at 125 kHz and 134.2 kHz, making it suitable for compatible low-frequency RFID applications.

It is a practical option for identification, access and tracking workflows that rely on LF RFID tags.

**Compatible with:** Topicon MDT880, Topicon MDT865, Topicon MDT1065
